EXPRESS BANNER STANDS & TRADESHOW DISPLAYS

Notus Banner Display Stand

The New Notus Smart Banner Stand from Paradigm Imaging Group represents the latest innovation in portable banner stand display technology. The Notus Smart Banner Stand is adjustable in both width and height and accommodates banners from 24" to 39" wide and 59" to 78" high. The Notus stand is simple to assemble and can be setup in less than five minutes. Instead of using traditional rectangular banners you can use banners in the shape of a trapezoid (four-sided polygon with two non-adjacent parallel sides) to create unique and eye catching displays.
